Tsz Kin Yu

BACKEND SOFTWARE ENGINEER

Los Angeles Metropolitan Area, CA | (626) 560-4329 | tszkinyu30@gmail.com | www.linkedin.com/in/tsz-kin-yu-574b48171

PROFESSIONAL SUMMARY

Backend Software Engineer with 5 years of experience building and optimizing backend services for a FinTech wealth-management platform. Skilled in Java, Groovy, Oracle SQL, JPA/EclipseLink, and REST API integrations, with demonstrated results improving high-volume authentication flows and large-table query performance.

EXPERIENCE

InvestCloud, Inc. - Software Engineer | Los Angeles, CA | Mar 2021 - Mar 2026

- Designed a client-specific session reuse flow with configurable expiration for an integration processing approximately 20,000 API requests per minute, eliminating repeated per-request authentication, preventing timeouts, and reducing worst-case calls from about 2 minutes to millisecond-level latency.
- Optimized Oracle SQL across tables with 10M+ rows to use appropriate indexes, reducing a query that previously timed out after 5 minutes to 2-3 seconds.
- Integrated custodial APIs for holdings, balances, and delayed pricing into reusable profit-and-loss views supporting multiple wealth-management clients.
- Implemented and reviewed Java and Groovy backend changes using JPA/EclipseLink and REST APIs, collaborating within an 8-person engineering team to deliver production-ready features.
- Mentored junior engineers, conducted code reviews, and coordinated with QA, product support, and cross-functional teams to resolve production issues and document technical solutions.

SKILLS

Languages: Java, Groovy, SQL
Backend & Data: REST APIs, JPA/EclipseLink, Oracle Database, Session Management, API Integration, SQL Query Optimization
Practices: Code Review, Production Support, Technical Documentation, Cross-functional Collaboration

CERTIFICATION

Oracle Certified Foundations Associate, Java | Oracle | Jan 2021

EDUCATION

California State Polytechnic University, Pomona | Bachelor of Science in Computer Engineering | 2016 - 2020

LANGUAGES

English | Chinese
